Dear Joe,

The Beneluxspoor.Net Foundation (BNLS) would like to call upon your help and cooperation. The Foundation is a volunteer organization whose goal is to promote the model railway hobby. More than 5,000 model railway enthusiasts have registered as users on our forum: <http://www.beneluxspoor.net>

We achieve with our digital services approximately 25,000 model train hobbyists in the Netherlands. We are thus in our area one of the largest internet communities in Europe.

Besides a busy forum, we exploit also a digital encyclopaedia for building a realistic model railroad. To be realistic to build, photographs and drawings and background-information is essential. This encyclopedia is now almost 1,400,000 times consulted.

We would like to ask for permission to share text, photographs and / or drawings and (re-) use of your website. Of course under the explicit mention of the source (<http://www.joesmodeltrains.com/index.htm>).

The URL of the encyclopedia is:

For a translated version of our dutch Portal-page into English (Google-way :-), you can use:
